ABOUT ME

I'm Chathura Denuwan, a dedicated computing student and aspiring software developer. I enjoy building websites, mobile apps, and creative digital projects that solve real problems. I'm also a competitive chess player, which has helped me develop strong focus, patience, and strategic thinking. I'm always learning, improving, and exploring new technologies as I work towards a career in software development.

EDUCATION

2024 - 2025

Pearson BTEC HND in Computing - (Undergraduate)

A comprehensive computing program that blends practical and theoretical skills in software development, data structures, business process support, and algorithms. It focuses on hands-on projects, industry-relevant skills, and critical problem-solving to prepare students for IT and software engineering careers.

2018 - 2024

G.C.E. Ordinary Level (O/L) - Sri Lanka

I completed the GCE Ordinary Level Examination in Sri Lanka with strong results across key subjects including Mathematics, English, ICT, Science, Sinhala, Commerce, History, Religion, and Dance

EXPERIENCE

2024

Leo Club of Moratuwa
Ratmalana

Web Developer & Graphic Designer – Leo Club of Moratuwa Ratmalana

I manage the Leo Club's digital presence by designing and maintaining their website, creating promotional and event graphics, and supporting overall branding efforts. My work strengthens the club's online identity and improves communication and engagement with members and the community.

2022 - 2023

St. Anthony's College,
Mount Lavinia

Visiting Lecturer at St. Anthony's College, Mount Lavinia

I conducted ICT and computing sessions for students at St. Anthony's College, Mount Lavinia, teaching digital skills, programming basics, and real-world tech applications. As a lecturer in this social impact initiative, I aimed to equip students with practical knowledge and inspire their interest in technology.
